About us

MacOcean Shipping Pvt. Ltd. is a premier shipping company focusing on dry bulk carrying and chartering services. Our company provides cargo vessels of varying sizes from Handysize to Panamax for chartering, and provides Contracts of Affreightment services. With a dedicated team of experts serving you round-the-clock, we take care of all your shipping requirements. Offering reliable services, we arrange to transport all your dry bulk goods throughout the Indian subcontinent, Persian Gulf, Far East, South East Asia and South East Africa. Our aim is to be a partner of choice for our esteemed customers by ensuring hassle free and cost effective bulk shipping.

We transport a variety of raw materials required for the construction industry, such as cement and cement clinker, clay, crushed stone aggregates in bulk, gypsum and limestone.

Being well versed with the shipping needs of the primary sector, we offer our clients in the agriculture industry expertise in moving goods such as salt, sugar, rice, crops and fertilizers between producers and markets of their choice.

Spurred on by economic growth in the Third World, the steel industry is today one of biggest industries worldwide. We understand your requirements of transporting raw materials like coal, copper slag, grain, iron ore, silica sand, and bagged cargoes to industries for manufacturing of high quality steel. We also arrange for the transportation of all finished steel cargoes such as beams, billets, channels, coils, girders, plates and rebars to markets, industries and end users.

Our expertise

We provide full-fledged services in dry bulk shipping. Our team is well qualified to handle all types of cargo and vessels, and our services extend through traders, suppliers, ship-owners, charterers, and vessel operators. Our operations team provides excellent market and operational reporting, pre-call arrangements for a quick loading, continuous in-port support, and post call functional updating.

VOYAGE CHARTER: With a large fleet of vessels at our disposal, we offer flexible options for our clients to transport their goods on demand. Our company selects the right vessel to suit your cargo type and quantity, providing easy and direct access to the markets of choice. We provide most efficient transportation solutions, and our team works round the clock to provide you with all necessary support and feedback during the voyage.

TIME CHARTER: Our professionals utilize the fastest routes and ensure minimal time spent at ports so that our clients can enjoy quick and hassle-free shipping of goods. All the expenses and other issues are taken care of so that you can enjoy complete peace of mind. The Company's strengths lie in delivering a superior value for money and a commercial flexibility offering ease of business.

Charterbulk Services

CHARTERBULK SHIPPING LLC – OUR ASSOCIATE COMPANY

CharterBulk Shipping LLC was founded in 2009 by a team of experts to initiate broking operations in the dry bulk shipping sector. Since then the company has been fixing vessels and cargoes, and handling vessel operations and assisting MacOcean in commercial activities. The company focuses on handling all types of dry bulk trade requirements. CharterBulk has well-qualified professionals from the shipping industry committed to providing solutions for precise operational handling. Our charter shipping services include the following:

COMMERCIAL SHIP MANAGEMENT

CharterBulk provides commercial management service for all your dry cargo ships. We execute contracts for third-party owned vessels providing for insurance and cargo with appropriate clients worldwide. We manage operations management.

SHIPBROKING

CharterBulk acts as a specialist intermediary between ship-owners and charterers, for utilizing vessels to transport cargo for marine and offshore industries within the global market.

MARITIME CONSULTATION SERVICES

CharterBulk works with its clients closely and offers design, engineering services and consulting solutions to the marine and offshore industry, in tune with the requirements of international maritime trade.

COMMODITY TRADING

With support from its group company, CharterBulk carries out trading in hard commodities such as bagged & bulk cement, iron ore, steel bars, limestone, and aggregates. The group offers clients the flexibility of choosing from FOB, CNF or CIF models with attractive pricing.

LOGISTICS & FREIGHT FORWARDING

The Company arranges for local and global movement of containerized freightment. CharterBulk offers freight forwarding with differentiated and advanced logistics solutions by sea, land, and air routes.

“ **MacOcean ensures safe and cost-effective transportation of all our bulk cargo. Look no further.** ”
